## Plan Your Escape Route:

- Draw a map of your home showing all doors and windows on the grid above. Label two ways out of every room, if possible.
- $\hfill\square$  Make sure all escape routes are free of debris and tripping hazards.
- $\hfill$  All doors and windows leading outside should be free of clutter and open with ease.
- □ Choose a designated outdoor meeting place (i.e. mailbox, tree, light pole) at a safe distance in front of your home that everyone knows to go in the event of a fire.
- □ Practice your escape plan twice a year with everyone living in the home.

## In Case Of A Fire:

- □ When the smoke alarm sounds, get low to the ground, crawl quickly under the smoke and heat, and get outside.
- **□** Close doors behind you to keep flames and smoke from spreading.
- Go to your designated outdoor meeting place.

□ Once you are outside, call 9-1-1 and NEVER re-enter the burning home for any reason.
